

Meeting of 7 December 2000 in Brussels

➤ Participants:

Prime contractors of Smart.IS (Eurosmart, Cyber-Comm, Smart IS Marketing, Euralia), Eurosmart members (Gemplus, Giesecke & Devrient, Thales, STMicroelectronics, Philips Semiconductors, Sagem), telecom operators (Telecom Italia, France Telecom, Nokia Mobile Phones, CSELT), financial operators (Visa International, Sermepa), systems integrators (Axiome), consultancy and experts (Ernst & Young, French Ministry of Industry, Internet Society).

➤ Objectives of the meeting

- To **present** the Smart.IS project
- To set up the **Steering Committee** of the project, composed by the above participants and other companies such as Schlumberger, Oberthur Card Systems, Ingenico, Infineon, Atmel, Apacs, Mondex International, and Gie Cartes Bancaires.
- To discuss the positioning of the Smart.IS project as regards to the **eEurope** initiative.
- To launch the first working group of the project on the definition of a common cardholder identification module.
- To define the contributions of each partner for working group 1.
